HOW THIS REFERENCE TOOL CAN HELP YOU:

Each year, all the federal income tax brackets — the window of income where a certain tax rate ends and begins — are updated to reflect the current rate of inflation. These tweaks, formally known as inflation adjustments, are a critical part of the tax code.

Tax inflation adjustment example

In 2024, a single filer making \$48,000 of taxable income pays a 10% tax rate on \$11,600 of their earnings, a 12% tax rate on the portion of the earnings between \$11,601 and \$47,150, and a 22% tax rate on the remaining \$850 that falls into that final tax bracket.

Assuming this taxpayer's income does not change in 2025, they will now pay 10% on earnings up to \$11,925 and 12% on the rest. In other words, they will no longer pay 22% on any part of their income. This is because the upper end of the 12% tax bracket has been updated from \$47,150 to \$48,475, which allows this taxpayer to shelter more of their income from a higher tax rate.

What is a marginal tax rate?

The marginal tax rate is the tax rate paid on the last dollar of taxable income. It typically equates to your highest tax bracket.

How to reduce taxes owed

Two common ways of reducing your tax bill are credits and deductions.

Tax credits can reduce your tax bill on a dollar-for-dollar basis; they don't affect what bracket you're in.

Tax deductions, on the other hand, reduce how much of your income is subject to taxes. Generally, deductions lower your taxable income by the percentage of your highest federal income tax bracket. So, if you fall into the 22% tax bracket, a \$1,000 deduction could save you \$220.

2025 ALTERNATIVE MINIMUM TAX

The Alternative Minimum Tax (AMT) was created in the 1960s to prevent high-income taxpayers from avoiding the individual income tax. This parallel tax income system requires high-income taxpayers to calculate their tax bill twice: once under the ordinary income tax system and again under the AMT. The taxpayer then needs to pay the higher of the two.

The AMT uses an alternative definition of taxable income called Alternative Minimum Taxable Income (AMTI). To prevent low- and middle-income taxpayers from being subject to the AMT, taxpayers are allowed to exempt a significant amount of their income from AMTI. However, this exemption phases out for high-income taxpayers. The AMT is levied at two rates: 26 percent and 28 percent.

Estates & Trusts	\$ 30,700	

CAPITAL GAINS • LOSSES • DIVIDENDS

The taxation of dividends and capital gains is one of the most controversial issues in public finance. Corporations must pay corporate income taxes on profits before they distribute dividends to shareholders, and shareholders pay an additional, individual-level tax on those amounts. Imposing two layers of taxation on corporate income can result in a total tax rate on capital income from corporations that is substantially higher than the rate on other types of income.

Long-term capital gain rate (longer than one year)

	0%	15%	20%
Single	\$0 - \$48,350	\$ 48,351- \$533,400	\$533,400+

Trusts and estates	\$0 - \$ 3,250	\$ 3,251- \$ 15,650	\$ 15,651+

Short-term capital gains are taxed as ordinary income according to federal income tax brackets.

Short-term capital gain rate (one year or less)

Taxed at ordinary income tax rate.

Dividends

Qualified dividends are taxed at the long-term capital gain rates. Nonqualified dividends are taxed at ordinary income tax rates.

Higher rates apply to collectibles and unrecaptured §1250 gain.

IRA REQUIRED MINIMUM DISTRIBUTION TABLE

Based on the new SECURE Act 2.0 (Setting Every Community up for Retirement Enhancement) changes, you must take out your first RMD (Required Minimum Distribution) by April 1 of the year after you turn age 73. For all subsequent years, you must take the money out of your accounts by December 31.

Here is the RMD table to 120 years old, based on data from the IRS:

Age	Distribution Period	Age	Distribution Period
72	27.4	97	7.8
73	26.5	98	7.3
74	25.5	99	6.8
75	24.6	100	6.4
76	23.7	101	6.0
77	22.9	102	5.6
78	22.0	103	5.2
79	21.1	104	4.9
80	20.2	105	4.6
81	19.4	106	4.3
82	18.5	107	4.1
83	17.7	108	3.9
84	16.8	109	3.7
85	16.0	110	3.5
86	15.2	111	3.4
87	14.4	112	3.3
88	13.7	113	3.1
89	12.9	114	3.0
90	12.2	115	2.9
91	11.5	116	2.8
92	10.8	117	2.7
93	10.1	118	2.5
94	9.5	119	2.3
95	8.9	120	2.0
96	8.4		

USE THIS WORKSHEET TO CALCULATE YOUR RMD

You can easily figure out how much you need to take out based on the RMD table. Here's how to do the calculation:

1. Determine the balance of your IRA account(s).
2. Find your age on the table on P.6 and note the distribution period number.
3. Divide the total balance(s) of your account by the distribution period.

This is your RMD.

EXAMPLE

You are 77 years old and the balance of your IRA account is \$650,000:

Balance \$650,000

Distribution period
for Age 78 22.0

(use chart on page 6)

SAMPLE CALCULATION FOR REQUIRED MINIMUM DISTRIBUTION

Balance divided by distribution period

\$650,000 divided by 22.0 = \$29,545.45

This amount is the RMD you would have to withdraw for that year.

SECURE ACT 2.0 - 2025 CHANGES

The SECURE 2.0 Act requires NEW defined contribution plans to include provisions that would automatically enroll employees once eligible. The initial automatic savings rate must be at least 3% but no more than 10%.

- Starting January 1, 2025, the savings rate for retirement plans must automatically increase by 1% each year. This increase will continue annually until the savings rate reaches a minimum of 10% but will not exceed 15%.
- Ensure your retirement plan documents are updated to reflect this automatic annual increase.
- Employees may elect out of saving at any point. The overall goal of this provision is to increase participation by requiring employees to opt out instead of opt in.
- Automatic Enrollment: SECURE 2.0 now mandates automatic enrollment in 401(k) and 403(b) plans established after December 29, 2022, with grandfathering rules for plans adopted before that date.
- Extended Amendment Deadlines: The deadlines for adopting plan amendments under SECURE 2.0 have been extended by an additional year, with new deadlines ranging from December 31, 2026, for most nongovernmental plans to December 31, 2029, for governmental plans.
- With the creation of the new “Starter K”, employees can contribute a maximum of \$6,000, with a \$1,000 catch-up for those 50 or over. Due to the deferral limit decrease, employers do not have to worry about annual top-heavy testing. In other words, smaller businesses that have not been able to provide a 401(k) for employees can now offer this Starter K plan.
- As for the catch-up contribution limit, starting in 2025, it will increase to \$10,000 for employees aged 60 to 63. The limit will account for annual inflation, but note that all catch-up contributions will now be required to be Roth. The only exception is if the employee earns \$145,000 or less every year.
- Additionally, the required minimum distribution (RMD) age has been increased to 73; and in 2033 the age will increase to 75 years old.

RETIREMENT ACCOUNTS

ESTATE AND GIFT TAXATION

Gift tax annual exclusion

\$19,000

An individual can give up to \$19,000 per person per year to any number of beneficiaries (family or non-family) without paying gift tax or “using up” any available applicable exclusion amount.

Estate and gift tax—basic exclusion

\$13,990,000 per person

\$27,980,000 for married couples

Estate or gift taxes apply to the extent that your cumulative transfers (lifetime exclusion gifts plus the taxable estate at death) exceed your applicable exclusion.

Your applicable exclusion consists of your \$13,990,000 (\$27,980,000 for married couples) basic exclusion plus any “unused” exclusion received from a spouse who predeceased you.

Portability: The election to transfer unused exclusion to a surviving spouse is made by filing an estate tax return. The filing deadline is 9 months after death for taxable estates, or 2 years after death if a return is filed solely to elect portability. (Election is only available if the first spouse died after 12/31/2010.)

Generation-skipping transfer (GST) tax exemption

\$13,990,000

Estate, gift, and GST tax rate

40%

Applies to transfers in excess of the applicable exclusion/GST exemption.

FEDERAL TRUST AND ESTATE INCOME TAX

If taxable income is:	The tax is:
\$ 0 - \$ 3,150	10% of the taxable income
\$ 3,151 - \$11,450	\$ 315 + 24% of excess over \$ 3,150
\$11,451 - \$15,650	\$2,307 + 35% of excess over \$11,450
\$15,651 - or more	\$3,861 + 37% of excess over \$15,650

EDUCATION SAVINGS ACCOUNTS (ESA)

- Maximum nondeductible contribution is \$2,000 per child, per year.
- Maximum contribution amount is lowered if a contributor's modified adjusted gross income (MAGI) is between:
 - \$ 95,000 and \$110,000 for individual filers
 - \$190,000 and \$220,000 for joint filers
- No contributions can be made if contributor's MAGI exceeds the stated limits or the beneficiary is age 18 or older.
- Interest, dividends, and capital gains grow tax-deferred and may be distributed federal-income-tax free as long as the money is used to pay qualified education expenses.

STUDENT LOAN INTEREST DEDUCTION

Maximum deduction	\$2,500
MAGI phaseouts:	
Married filing jointly	\$170,000 - \$200,000
Others	\$ 85,000 - \$100,000

KIDDIE TAX

Children who have not reached the age of 19 by the end of the tax year are subject to the “kiddie tax” rules. If the child continues to be a full-time student, the rules apply until he or she turns age 24. If a child is age 18 or older and provides more than half of his or her own support, the kiddie tax rules do not apply. The following tax rate schedule will apply (assumes no earned income).

Unearned income	Tax treatment
Less than \$1,350	No tax
\$1,351 but less than \$13,500	Taxed at child's rate
More than \$13,500	Taxed at the higher of the parents' top marginal rate or the child's tax rate

529 PLANS

A 529 plan gives you a tax-advantaged way to save for education. You can set aside money on an after-tax basis and then grow it tax-free. When you withdraw the money for qualified educational expenses, you won't pay any taxes on the gains, either.

Contributions are considered gifts for tax purposes. In 2025, gifts totaling up to \$19,000 per individual (\$38,000 per couple) will qualify for the annual gift tax exclusion.

Moving leftover 529 funds to a beneficiary's Roth IRA can be a great way to help them build their retirement savings. If you're ready to move forward with a 529 to Roth IRA rollover, start by opening a Roth IRA account for the beneficiary.

SOCIAL SECURITY BENEFITS

2025 Earnings test

The earnings test indicates the level of earnings permissible for Social Security benefits recipients without incurring a reduction of benefits. These limits are indexed to increases in national earnings.

Worker younger than normal retirement age	\$23,400
---	----------

Year worker reaches full retirement age (applies only to earnings for months prior to attaining full retirement age)	\$62,160
--	----------

Worker at full retirement age	No limit
-------------------------------	----------

Maximum monthly benefit: \$5,036

This benefit is for an individual who reaches full retirement age in 2025 and earns at least the maximum wage base amount for the best 35 years. In addition, you must wait until age 70 before you apply for benefits.

Information provided by the Social Security Administration.

Taxation thresholds

Up to a certain percentage of an individual's Social Security benefits is subject to taxation when his or her provisional income* exceeds certain threshold amounts:

	Up to 50% taxed	Up to 85% taxed
Married/joint	\$32,000 - \$44,000	More than \$44,000
Single	\$25,000 - \$34,000	More than \$34,000
Married filing separately		85% taxable ¹

* Provisional income generally includes modified adjusted gross income (MAGI) plus nontaxable interest and one-half of Social Security benefits.

¹ There is an exception to this rule if you lived apart from your spouse for the entire year. Consult your tax advisor for more information.

QUALIFIED BUSINESS INCOME DEDUCTION

Owners of business entities, which are not taxed as "C" corporations, are eligible for a 20% Qualified Business Income (QBI) deduction. The deduction for QBI may be limited and/or subject to phase-out, depending on the taxable income of the individual, as well as such factors as the type of business, amount of wages paid by the business, and amount of capital assets owned by the business. If your total taxable income — that is, not just your business income but other income as well — is at or below \$197,300 for single filers and \$394,600 for joint filers, you may qualify for the 20% deduction on your taxable business income.
